---

- |                 |                           |
|-----------------|---------------------------|
| • Ruby   RoR    | • SQL                     |
| • JavaScript    | • React   React Native    |
| • HTML5   CSS3  | • Test Driven Development |
| • jQuery   AJAX | • Agile Development       |

## EXAMPLE WORK

---

### DEALER'S CHOICE THE DRINK CHOOSING APP

- Stack: Ruby on Rails, React Native, PostgreSQL, Yelp API, custom API
- Mobile app navigates user through a round of drink preferences by swiping left or right, and seamlessly displays dealer's choice to user
